

## *Evolve your safety Processes:*

*From Training, to Implementing, to Reporting. SAFE is your full service Accident Prevention resource.*

Identify trends using reports for safety meetings and OSHA recordkeeping, meets mandated electronic submission to OSHA

SAFEreport provides monthly, quarterly and annual safety reports and OSHA recordkeeping

Keep track of all incident and workers' compensation claims in one place

Stay on time and in compliance for workers' compensation reporting to carrier. Prints all related forms to report a claim

SAFEreport is user friendly and provides same-day free unlimited telephonic technical support

## **Three steps towards a safe workplace:**

1. Tracking all incidents
2. Identifying trends
3. Addressing root causes

In addition to creating your OSHA reports and your workers' compensation reports, SAFEreport streamlines tracking incidents, simplifies the process of identifying trends, and makes root cause analysis easier so you can effectively take corrective action to prevent future injuries.

Thorough follow through is key to improved safety, including addressing process breakdowns, providing training specific to the problem areas, and providing clear corrective action. We know you'll find SAFE report a valuable tool for your organization.
